Speaking of Fall and Winter Suits

What is the particular feature most calculated to induce you to buy a suit of clothes in this or in any other store?

IS IT VARIETY? We will make no bones about this subject—we here and now go on record that the Saks selections are the biggest, most diversified, and least affected by the woolen shortage of any clothing assortments in New York today.

IS IT STYLE? Saks' make their own clothes right here in town, cutting, tailoring and finishing every garment according to the last-minute custom creations of upper Fifth Avenue.

IS IT WORKMANSHIP? What better proof and what better protection can you possibly have on this score than the simple fact that the workmanship is exclusively our own and the Saks organization stands squarely behind it?

IS IT VALUE? If it is, then it should be obvious to you that by making our own clothes we are thereby enabled to put into them the money which is held out on other clothes to pay the middleman.

And if it is not any one of these four reasons, we can furnish forty others to prove that your money will go further and your satisfaction last longer in a Saks suit than in any alternative choice.

just the same way it is done in the Fifth Avenue custom tailor shops. Only such clothes deserve to be called genuinely hand-tailored. Franklin Simon & Co. is the only New
